

## Global Solo Challenge - Participants Price List

**GLOBAL 2023**  
**SOLO CHALLENGE 2024**

With a satellite phone from Range Global Services all of your equipment and airtime service is included in one low monthly fee. There is no upfront purchase of equipment required.

We can also provide a U.S. based number, which eliminates the need of expensive international “satellite” toll charges or confusing two stage dialing platforms. As an RGS customer you also get peace of mind with the “Full Range Service Plan.” This plan provides full warranty coverage for your equipment, if something breaks RGS replaces the equipment at no charge.

In short, Range Global Services provides the lowest prices and best customer service for those needing or using satellite communications. Contact Range Global Services today for more information, and a customized quote for a satellite communications solution to meet your needs. [www.rangeglobal.com](http://www.rangeglobal.com)

## **NOTES TO GSC PARTICIPANTS (18/02/2021)**

Iridium is going to be rolling out new products this year (2021) and early next year which will be more cost efficient solutions than Inmarsat Fleet One and the current Certus units in the market for higher speed connections.

This document has been prepared with current market pricing and will be updated/upgraded with relevant offers as they become available.
